

Hello,

approximately 15% of the world's population have a hearing loss with different levels and causes.

Today we have more and better options to balance hearing loss by modern technology.

But technology alone does not make a good hearing aid. An attractive design and a high level of comfort are also important.

We at **bruckhoff hannover** are specialists for many years and have been setting the standards in hearing loss solutions, both technically and in terms of comfort and design.

Get inspired by our unique and high quality product – „**Made in Germany**“.

la belle and la belle 2

The combination of hearing module and spectacles becomes a unique and smart *la belle* or *la belle 2*.

Ideal for people who are looking for a discreet and smart solution for natural hearing.

EN

Click-System Perfect: you can click the hearing modules to all your glasses

◀ **la belle 2**
With the new design the hearing system is perfect integrated.

la belle 2 stands for easy-going for seeing and hearing with maximum wearing comfort.

Glasses and hearing device all in one

Glasses and hearing devices are worn behind the ear. bruckhoff hannover has combined both.

The result

The combination makes your own spectacles into a seeing and hearing system. Integrated discreetly and cleverly made, the new added value of your glasses is almost invisible – but audible.

Surplus value

A unique hearing system, which

differs from other hearing systems by individuality, exclusiveness and wearing comfort.

The technology

Only the latest technology of leading hearing system specialists is integrated, such as bruckhoff hannover, Oticon, Phonak, Siemens or Widex.

No matter if la belle or la belle 2:

Enjoy more quality of life. Enjoy the perfect combination of good seeing and hearing.

la belle ▶

Our classic and established la belle is and stands for first choice, when exclusive support is required.

Your hearing aid acoustician will be pleased to advise you on the most suitable model.
